

# Direct Debit Scheme

## The Scheme

Parents can choose to pay in three equal monthly instalments. Payments are collected on the 27th of each month, beginning with the first month of the term — for example, the Summer Term payments would be taken in April, May, and June.

## The Benefits

- Under the usual terms, fees must be paid on or before the first day of term. With our Direct Debit scheme, you gain extra time to pay — essentially offering interest-free credit.
- Break your termly fee into three manageable monthly payments, easing the financial pressure of paying it all at once.
- Payments are collected automatically, and your invoice clearly states when each payment will be taken — giving you complete peace of mind.
